

## **Tech rider for Ghost Avenue**

### **Band members**

Kim Sandvik – vocals

Thomas Eljarbø – guitars

André Berger – guitars, backing vocals

Petter Lein – drums

Magnus Liseter – bass

### **Backline**

Guitar amp1: Marshall JCM2000 top + Marshall 1960 cab

Guitar amp2: Marshall JCM900 top + Marshall 1960 cab

Bass amp: Ampeg SVT-3PRO top + Ampeg SVT-410HLF cab

Drum kit: Premier Signia Marquis - 2x bass drum (22"), 2x toms (10"/13"), 1 floor tom (18"),  
snare, hihat, ride, china, 3x crash

When travelling light - without any backline gear - the above mentioned or similar equipment is preferred.

Both guitarists need power for their pedal boards at the front of the stage.

### **Input list**

As the sound engineer prefers as long as the following are covered:

- mic'd up drums
- mic'd up guitar amps
- mic or DI (or both) on the bass amp
- 1 main vocal mic + 1 backing vocal mic

No input or line needs besides these.

### **Monitoring**

As far as possible, the following is preferred:

Monitor\_1 – main vocals

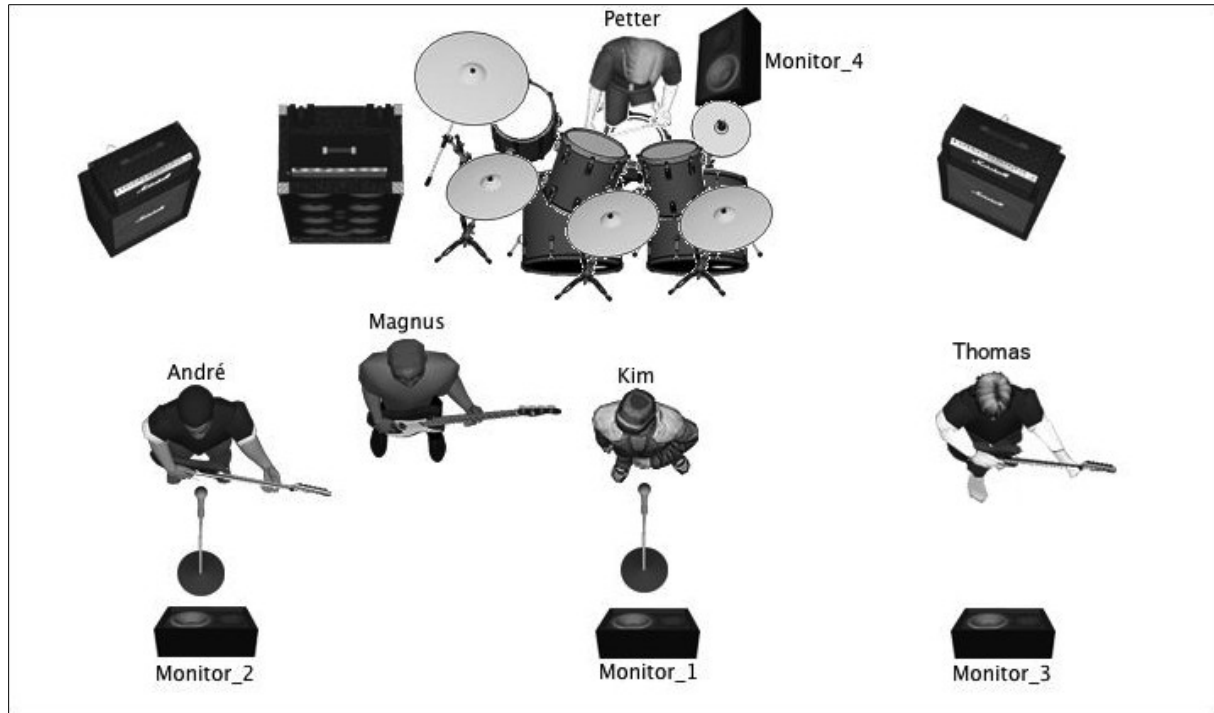

Monitor\_2 – guitar/vocals - André

Monitor\_3 – guitar - Thomas

Monitor\_4 – drums

Main vocalist need much of his own vocals, the drummer usually needs a bit of himself and specially his bass drums. Backup vocals needs his own vocals + the main vocals.
